

# Under the Gun

## Havok

Got your back against the wall  
No time left, no time to stall  
Life is about to shoot  
But you don't know when, you don't know who Under the gun  
Under pressure and anxiety  
You gotta find a way  
Under the gun  
Or there is hell to pay  
Under the gun  
Eventually...  
Gotta do what you gotta do Doing what does not belong  
Doing what you know is wrong  
Pressure building up to critical mass  
Trying not to break the hourglass  
Got no room to make mistakes  
Stuck between a rock and a hard place  
Life is about to shoot  
But you don't know when, you don't know who
