Partners In Crime

Mr. Mister

Is this a world of strangers, a cold and cruel life
Or can I call this place my home
I'll step into the danger, if only for one night
I can't keep living all aloneThis time you could be my only one, this time we gotta take a chance
'Cause you and I areChorus:
Partners in crime, caught between what's right and wrong
We're two of a kind
Partners in crime, when you think you can't go on
You'll reach out and find, together we surviveI can't control the anger, these feelings deep inside
It makes my body feel so cold
I've searched so many faces, too many desperate nights
I need someone like you to holdThis time I could be your only one, this time we gotta take a chance
'Cause you and I are(chorus)Partners in crime, partners in crime(Solo)This time I wanna be your only one, this time we gotta take a chance
'Cause you and I are(chorus repeats 2x)Partners in crime, partners in crime
Partners in crime, partners in crime(chorus to fade)
