

Everybody Scream (Dr. Wolfenstein Theme)

Rob Zombie

Attention boils and ghouls
It's time for Dr. Wolfenstein's
Creature feature show Yeah, solitary things, in a monster eye
Undertaker, fog high in a coffin sky
Cool ghoul, ain't a fool, all the ladies cry
Ghost host, with the most, all the ladies die Everybody scream for Wolfenstein
A skeleton brain, in a graveyard mind
Oh, everybody scream for Wolfenstein
A voodoo daddy he's a one of a kind, yeah Ah, the doctor is in
Don't scream, don't move
I'm your host, your ghost host, with the most
Dr. Wolfenstein Yeah, shriekin' in the night, on holy hills
A matter badder, baby, givin' you the chills
Cool ghoul, ain't a fool, sharpen up the fangs
Ghost host, with the most, join a monster jam Everybody scream for Wolfenstein
A skeleton brain, in a graveyard mind
Everybody scream for Wolfenstein
A voodoo daddy he's a one of a kind, yeah Yeah, everybody scream for Wolfenstein
A skeleton brain, in a graveyard mind
Oh, everybody scream for Wolfenstein
A voodoo daddy he's a one of a kind, yeah
