

Cardinal Rule

Ten Feet Deep

When you shut me out
You didn't share a reason
You just cut me down
I couldn't bear the treason Right or wrong I've seen the change
In my heart you still remain
My one fire You fool, breaking the cardinal rule
I'll tear it apart
I know you will be leaving soon When you answered me
I knew that you were leaving
Was my honesty
the excuse that you were needing Right or wrong I've seen the change
In your heart I lost my place
My mistake! You fool, breaking the cardinal rule
I'll tear it apart
I know you will be leaving soon
I know you will be leaving soon
I know you will be leaving soon
