My Poison

Ayria

You're my drug
Twisted lust
I can't get up,
I don't feel sober
Burning skin
To the touch
Leave the shame
to your subconscious
And the kiss
From your mouth
Left a taste
that pushed me over
I think
we're crazy in lust
I think I'm crazy
in love with you
(Chorus:)
We've got to stop this now,
now, now is when I want it
Talk's useless and overrated
Now we have to try and stop

this all from happening
It gets inside my head
It picks apart my rules
It's a game,
one that I love to lose
And it stings
And there's fear
And it grips me all over
I feel pain
But I'd die
If I can't have
this moment
I think
we're crazy in lust
I think I'm crazy
in love with you
CHORUS

Take it all
Take my pride
