Made In Heaven

Deine Lakaien

Looking, searching, for something to share
You don't know where to guide me
Take away this world called sadness
Some of us will dream it forever
They don't know where to hide it
They just keep on traveling round
But I know I can't keep going
And I don't know what ties me downLovers that find you
Just want to guide you
Nobody wants to sell at a lossCan you resist them
can you forgive them
Taking them to their ideal worldThey don't know what's good
They don't know what's bad
But believe me they're not afraidNow just listen
And forget them
won't you miss them, don't want to fight
Remember me
'Cause it is made in heaven
Try to leave me
try to ignore
