

# Nice to Meet You

## DramaGods

Hello it's really nice to meet you  
At last it's really nice to meet you Throw me a party on a sunny afternoon  
A pleasant surprise you know you didn't have to  
Nice decorations flowers everywhere  
Everyone is cheering you know they care Covered in my favorite color  
Roses bleed so beautiful  
And why is red my favorite color  
And please tell me how did you know Enter the devil in shiny coat and pants  
Calling my name you know he does a dance  
Tease me for hours this isn't any fun  
The crown cheers as if it just begun
