

# Lifetimes

## Ezekiel Ox and the Fury

Take off your halo, take off your golden crown  
The spotlight's off, the shades are down  
Where are your friends now, they're ghosts in a windowpane  
Sometimes it's hard to stay the same  
And we can live lifetimes in a single day  
No matter what you do, I love you anyway  
You say if you're lost inside, I get lonely too  
Even in the worst of times, I give my best to you  
I dreamed I was swimming, fighting the undertow  
Drifting in circles, no place to go  
And when I woke up, I was wringing wet  
So much stronger than before

And we can live lifetimes in a single day  
No matter what you do, I love you anyway  
You say if you're lost inside, I get lonely too  
Even in the worst of times, I give my best to you  
The words escape the silence made  
The looks betray, I'm not afraid  
We can live lifetimes in a single day  
No matter what you do, I love you anyway  
You say if you're lost inside; well, I get lonely too  
Even in the worst of times, I give my best to you  
Even in the worst of times, I give my best to you
