Black Bomb A

Yeah
Push the button down
Yeah
Push the button downBurn, burn TV burn
Nobody will be saved
Burn, burn TV burn
Nobody knows the side effects
Burn, burn TV burn
We are the willing victims
Burn, burn TV burn
TV : Drug of the nationI want it more
I always want it more and more
I need it again
your screens lobotomize me
I want it more
I always want it more and more
Coz your screens erase meNo need to learn.
Life through screens.
All is fake, just some conditioning.
There's no reality anymore
No need to learn.
Life through screens.
All is fake, just some conditioning.
There's no reality anymoreBurn, burn TV burn
TV: a virus which divides us
Burn, burn TV burn
TV takes us high, attracts us
Burn, burn TV burn
Like a needle driven through my veins
Burn, burn TV burn
Hypnotic, narcotic, cathodic
Coz your screens erase meNo need to learn.
Life through screens.
All is fake, just some conditioning.
There's no reality anymore
No need to learn.
Life through screens.
All is fake, just some conditioning.
There's no reality anymoreBurn, burn TV burn

Your world, a remote control
Burn, burn TV burn
Your life is under control
Burn, burn TV burn
Your wife get bored by your side
Burn, burn TV burn
Your hands grip tightly armchairs
Burn, burn TV burn
When your spirit is touched
Burn, burn TV burn
By GOD-TVChannel one
Your eyes are still staring at the magic box
Channel two
Fucking information lead you astray
Channel three
So many years, watching the same stupid shows
Channel four
Sex, violence give as your daily breadI want it more
I always want it more and more
I need it again
your screens lobotomize me
I want it more
I always want it more and more
Coz your screens erase meNo need to learn.
Life through screens.
All is fake, just some conditioning.
There's no reality anymore
No need to learn.
Life through screens.
All is fake, just some conditioning.
There's no reality anymoreYeah
Push the button down
Yeah
Push the button down
Yeah
Push the button down
