Home (feat. Romans)

Naughty Boy

Red door ends the driveway on the street where we met
I take a thousand memories on the road with me
So we never forget
It's been a good year, will be a long day
Before we lay our heads down to rest
And if those tears come rolling down
I'll pull you close to me
And tell you we'll be back there againWon't be a long time, time
Won't be a long time
Won't be a long time, time
Won't be a long timeTill we get back home
Till we get back home
Till we get back home
Till we get back home
Till we get back home
Till we get back homeWe've had good times, it's been real love
And I know it's hard to move on
But don't place your sentimens in the things we left
It's when we're together, we're homeWon't be a long time, time
Won't be a long time
Won't be a long time, time
Won't be a long timeWon't be a long time, time
Won't be a long time
Won't be a long timeTill we get back home
Till we get back home
Till we get back home
Till we get back home
Till we get back home
Till we get back home
