

# Arizona Sky

## China Crisis

The Arizona sky  
The sky is bigger there  
It took my breath away  
That doesn't happen every day  
Manhattan's music, man  
On every avenue  
You've heard no greater sound  
Too much can get you down  
Decorate, paint it for the union  
No reason to give up on the illusion  
Take confident possession of yourself  
No reason to give up on the illusion  
Venice is sinking fast  
Looks almost upside down  
Under a spell we fell  
There's more, too much to tell  
Decorate, paint it for the union  
No reason to give up on the illusion  
Take confident possession of yourself  
No reason to give up on the illusion  
Uptown in Paraguay  
Beneath Chicago moon  
Spend every dollar saved  
As much as we have made  
Decorate, paint it for the union  
No reason to give up on the illusion  
Take confident possession of yourself  
No reason to give up on the illusion  
Decorate, paint it for the union  
No reason to give up on the illusion  
Take confident possession of yourself  
No reason to give up on the illusion  
Decorate, paint it for the union  
No reason to give up on the illusion  
Take confident possession of yourself  
No reason to give up on the illusion  
Decorate, paint it for the union  
No reason to give up on the illusion  
Take confident possession of yourself  
No reason to give up on the illusion
