

Coffee

Grace

Mhhhh

Can I hide in the kitchen, yea,

My cup is already half full

Yes the taste that I'm feeling, no milk and two sugars

if that's cool, cool, cool Can't sleep when it's late but that ain't me complaining

Nobody can keep it like you

So good I can taste it, when you're gone I crave it, Nobody can make it like you By the time you're leaving I'm

begging you to stay

And if you leave, I'd only get in your way, you can keep me needing even when I am awake

But the coffee never taste the same, yeaaa(Chorus)

My Babe My Baby My Babe My Baby

I drink so much I guess they call it love

My Babe My Baby My Babe My Baby

You keep me up I just can't get enough It's 3 am in the morning ain't never been lonely

I just want to wake up to you..you

And you could be there, you could be the one that I'm needing

Honey just let him be you Can't sleep when it's late but that ain't me complaining

Nobody can keep it like you

So good I can taste it, when you're gone I crave it, Nobody can make it like you By the time you're leaving I'm

begging you to stay

And if you leave, I'd only get in your way, you can keep me needing even when I am awake

But the coffee never taste the same, yeaaa(Chorus) You're my sugar sweet, I wanted to say

I really really need you to stay

You're the only way to start my day(Chorus x2)
