

I Got This

Candice Sand

Verse 1:

You say you think I'm so naive
Confessing you don't believe
So I had to pack all my courage and go
At times it's the hardest thing
Fighting to fill craving
Knowing I pave this road alone

Pre-Chorus:
Keep reaching out
to hold something true

But I know now

What I've gotta do

Chorus:
I'm gonna take this running start
Finally listen to this heart
Feed my soul just what it needs
some space to breathe and just believe
I'm feeling stronger than ever now
I'll watch my feet rise off the ground
Make a life just for myself
and I don't need anybody's help
cause I got this, I got this
and don't you tell me what is right
cause I got this, I got this

Verse 2:

Now I gaze into city lights
awaking this fire inside
A restless burnin I can't ignore
I'm caught in the rising flames
and no, I don't need to be saved

The thrill is what I came here for

Pre-Chorus: Chorus: Bridge:
I'm strong but so small
against concrete walls
Filled with possibility
Throw all uncertainty away
My dark days are gone
Never thought I'd be the one

The one to come and lift me up and save me
