Power

Leona Lewis

Gonna release my restless heart
Unlearn all of the things you taught
Woke up now I can't keep standing still
Gotta run, fill my lungs with the love I feel
I feel, I II got the power
Power
I feel the power
PowerTake a deep breath, I'm jumping in
This is where you end and I begin
See the world through my kaleidoscope
I am the one I've been waiting for
I've been waiting forI got the power, ooh
Power
I feel the power, ooh
PowerSometimes it feels like
Life is flashing right by
Sometimes it feels like
Life is flashing right byI feel the power, ooh
Power
I feel the power, ooh
Power, ooh
