Racetrack

The Heavenly States

You spend all ya life
wait'n for the main event
24 hours a day
you know how it's spent
On a racetrack - living on the edge
on a racetrack - living on the edgeMaking breaking records is all that you need
You cant live without it - cause your hooked on the speed
On a racetrack - living on the edge
on a racetrack - living on the edgeIt's everything too you - it's all that you know
The start of the race - you hear the engines roarrrrr
On a racetrack - living on the edge
on a racetrack - living on the edgeIt's a racetrack living on the edge
It's a racetrack living on the edge
Racetrack living on the edge
Racetrack living on the edgeWomen it's you - you've been waiting for
You'll see the crowd and you can hear them roar
Green light - heartbeat
Ohhh shift that stick
C'mon baby - c'mon baby do it for me know
I need ta - feel your engine (vibrate)
C'mon baby - c'mon baby feel it (do it for me now)
Living - living on
Living on the.....
I like like like like like it.....
