

# My Way (feat. Common, Lloyd & Kendrick Lamar)

## DJ Drama

Ohhh  
As the city lights up the night  
I feel so  
Good cause I did it my way  
And I know  
That I'm just livin' the life for pearls and gold  
And I feel so good  
Cause I did it my way Nights bright like Vegas  
The life of girls and gold is so contagious  
I been cold  
Took the C,O, double M road  
Hangin' out the windows  
Reachin for the world as the wind blows  
The crescendo of my career loud in your ear, ear  
I'm proud to be here, now that we here  
This year, you can find me at the cosmopolitan  
Holding bottles, never bottled in  
Probably with Chicagoans  
And there's black girls modellin'  
Looking for a followin'  
Attitude is tolerant  
I'm married to the game like Solomon  
These rings represent the dreams  
We got from the old folk, yearning for the gold coast  
My soul spoke things that was necessary  
Found forever in ways that are legendary  
And through the drama, I stuck to my commentary  
Now that everyday man say that comm is every-where Ohhh  
As the city lights up the night  
I feel so  
Good cause I did it my way  
And I know  
That I'm just livin' the life for pearls and gold  
And I feel so good  
Cause I did it my way I used to dream of rising now I see it clearer  
How surprising I'm admiring that mirror  
I'm inspiring the finer things in life  
And your time is slowly expiring, you're crying me a river  
That's ironic, she have a roll in it as well

I like to swim in it like Olypmians YSL  
And some Timberlands high as hell  
The ceiling is an understatement  
I burn through it, prove it's a fire drill  
Fire hoes, bad bitches fire hoes  
Fire then re-hire hoes  
Her entire crew is tired of the liars that you runnin by her  
I can see you ho  
Plenty priors of a fuck nigga, nigga I suppose  
I can fly her, put her in attire of designer clothes  
Dayton wires on the Chevy, why are you not tryna roll?  
Don't you know they already fuck me, I'm a made man  
Maids in the mansion clean them up, out hereOhhh  
As the city lights up the night  
I feel so  
Good cause I did it my way  
And I know  
That I'm just livin' the life for pearls and gold  
And I feel so good  
Cause I did it my way
