

# Pendulous Skin

## Mastodon

Yeah  
Float away Known so low  
You run away  
Desolate us  
Desolate all No love is lost  
You know we're weightless  
Climb  
Under my wing  
Climb Known so low  
You run away  
Desolate us  
Desolate all No love is lost  
You know we're weightless  
Climb  
Under my wing  
Climb Known so low  
You run away  
Desolate us  
Desolate all Grown so slow  
You run away  
Desolate us  
I'm sailing away
