Isaac

Bear's Den

isaac are you listening
i watched it from afar
yes i watched as the clouds began to part
Isaac can you see me now I've known you all my life
I worship the ground you walk upon
Isaac will you never learn that a father's love must be earned or your mother may not learn
isaac i have never seen you look so afraid with your head pressed so hard against the stone
you look so alone
i'm gonna give all my love to you (5X)
isaac are you listening
i watched it from afar
yes i watched as your life just fell apart
Isaac i could never learn why a father's love must be earned
or your mother may not learn how to love you
i'm gonna give all my love to you (5x)
