Shimmer

Bhava

She calls me from the cold
Just when I was low, feeling short of stable
And all that she intends
And all she keeps inside isn't on the labelShe says she's ashamed
Can she take me for awhile
Can I be a friend, we'll forget the past
Or maybe I'm not able and I break at the bendWe're here and now, will ever be again
'Cause I have found
All that shimmers in this world
Is sure to fade away againShe dreams a champagne dream
Strawberry surprise, pink linen on white paper
Lavender and cream
Fields of butterflies, reality escapes herShe says that love is for fools that fall behind
And I'm somewhere between
Never really know a killer from a savior
'Til I break at the bendWe're here and now, will ever be again
'Cause I have found
All that shimmers in this world
Is sure to fade away againIt's too far away for me to hold, too far away
It's too far away for me to hold, too far away
It's too far away for me to hold, too far away
It's too far away for me to hold, too far awayIt's too far away for me to hold, too far away
It's too far away for me to hold, too far away
Guess I'll let it go
