

# What Remains

## Mercury Falling

Fear of manity(?)  
Has opened up the gates  
They bid(?) you in, to stars are dreams in an absolute dressparade  
How stunned will you be?  
What's the message on your soul?  
That smite(?) was smile  
That's in your eyes  
Shows that you're alone  
Feeling the nerf within inside  
As you look in the mirror this time  
Oh, your try is to pretend, 'cause your life is not intense  
What you lived here and gave me  
So tell me what remains  
What are you searching in your light?  
What's behind your plastic smile?  
What you strike for is all in bane  
So tell me what remains  
A beautiful escape  
Time will rush you wake  
What is real and what is fake?  
They tryin' with open eyes  
Your love won't fill the gap  
You're pretty nice, beautiful  
It seems that you're trapped  
Feeling the nerf within inside  
As you look in the mirror this time  
Oh your try is to pretend, 'cause you're life is not intense  
What you lived here and gave me  
So tell me what remains  
What are you searching in your light?  
What's behind your plastic smile?  
What you strike for is all in bane  
So tell me what remains  
Oh your try is to pretend, 'cause your life is not intense  
What you lived here and gave me  
So tell me what remains  
Oh your try is to pretend, 'cause your life is not intense  
What you lived here and gave me  
So tell me what remains

What are you searching in your light?  
What's behind your plastic smile?  
What you strike for is all in bane  
So tell me what remains  
Oh your try is to pretend, 'cause your life is not intense  
What you lived here and gave me  
So tell me what remains  
What are you searching in your light?  
What's behind your plastic smile?  
What you strike for is all in bane  
So tell me what remains
