Tragic Idol

Paradise Lost

Ground below, just save me from it all
Ground below, embrace me
Dark the soul that saves me, you save me from
With all your faith, the more we take awayIn a daydream all along such fragile words
A daydream all along fragile worth
It escapes me, all alone my tainted soul
It escapes me, all control, Tragic IdolDark the soul, such frailty and self control
The more we take, the more you fade awayIn a daydream all along such fragile words
In a daydream all along, fragile worth
It escapes me all alone my tainted soul
It escapes me, all control,
