I Called You Back

Bonnie 'Prince' Billy

And I called you back to a place beside me
And I called you back to a place beside meLove found us easily
And if that's all we have you will find we need nothing moreAnd I called you back to a place beside me
And I called you back to a place beside meAnd every time we kiss
We find ourselves in love againAnd the older that we get
We know that nothing else for us is possibleAnd I called you back to a place beside me
And I called you back to a place beside meMm, when I was quiet
Well, I heard your voice in everythingAnd I called you back to a place beside me
And I called you back to a place beside me
And I called you back to a place beside me
