

# For Always

Tyrese

Something about the way  
Words to describe who I cannot say  
I'm going outta my mind, thinking of you at times  
'Cause you make me feel so wonderfulMy heart is willing, won't you stay with me?  
Promise to love me for always  
You know there's nothing, I won't do for you  
I want you in my life for always, yesYou were made for my touch  
No one but you ever loved me this much  
You are one of a kind, someone I'm truly blessed to find  
So much happiness I found with youMy heart is willing, won't you stay with me?  
Promise to love me for always  
You know there's nothing, I won't do for you  
I want you in my life for alwaysBaby, you have taken your love  
And made a dream come true  
I found it in you  
Promise me, you'll stay with me ever and alwaysMy heart is willing, won't you stay with me?  
Promise to love me for always  
You know there's nothing, I won't do for you  
I want you in my life for always  
Don't you take your love away?My heart is willing, won't you stay with me?  
Promise to love me for always  
You know there's nothing, I won't do for you  
I want you in my life for always  
I'll love you for always
