Slay!

Mclusky

Together we'll save his balls from fire, from fire
Together we'll save his balls from fireHe is not the man they think he is at home
There is fortune to be wasted, now the West is almost won
There is fortune to be color-coded in the waiting room
He is not the man the Daily Mirror think he is at homeFollow the bleeding, a better deal for axe murderers
Together, together, togetherTogether we'll save his balls
From fire, from fireHe is not the man they think he is at home
There is fortune to be wasted, now the West is almost won
There is fortune to be color-coded in the waiting room
He is not the man the Daily Mirror think he is at homeFollow the bleeding, a better deal for axe murderers
Together, together, together
Together, together, together
