

All About Love

After 7

You won't regret it
Let's make it happen right now, right now
There's no one, no one like me
I've been told so many times before
And if it was true, I know he couldn't do you like I do
And do the things I do to you, girl
You see, you see that I'm a special guy
I thought you knew everything before you got involved with me
You know that I'm the one to get the job done
Oh girl, I love you naturally, yeah
There should not be a doubt in your mind
I have to prove myself to you a thousand times, girl
And if you want real love, then come with me
I won't do you wrong, I will love you all night long
1, I'm all about love
2, it ain't no joke
3, I can do you right
4, just stay the night
You won't regret it
Let's make it happen right now, right now
Soon and very soon, you should make that move
And if you don't, somebody will take your place
But I do care, I feel
I need to have you with me, girl
You better take time and understand my wishes
But don't get confused with them
Oh, I'm about lovin' you and that's all I wanna do
I wanna take you to another level
There should not be a doubt in your mind
I have to prove myself a thousand times, yeah
And if you want real love, then come with me
I won't do you wrong, I'll love you all night long
1, I'm all about love
2, it ain't no joke
3, I can do you right
4, just stay the night
You won't regret it
Let's make it happen right now, right now
1, I'm all about love
2, it ain't no joke
3, I can do you right
4, just stay the night
You won't regret it
Let's make it happen right now, right now
I want to be the only one for you
You can't believe how much I try to be
You won't regret it, let's make it happen right now, right now
1, I'm all about love
2, it ain't no joke
3, I can do you right

4, just stay the night
You won't regret it
Let's make it happen right now, right now1, I'm all about love
2, it ain't no joke
3, I can do you right, girl
4, just stay the night, stay the night, baby
Right now, right nowI want to be the only one for you
You can't believe how much I try to be
You won't regret it, let's make it happen right now, right now1, I'm all about love
2, it ain't no joke
3, I can do you right
4, just stay the night
You won't regret it
Let's make it happen right now, right now
