

In the Dark

3 Doors Down

Whenever the lights go down

That's when she comes alive

Ooh ooh

Maybe it's just something that you can only see in the light

Ooh ooh

A pretty little vixen dancing out on the scene

But the lights are shining, so she's keeping it clean

Don't get too close

Boy, don't touch her skin

Or you'll never feel the same way again If everything you see is what you're believing

Then she'll be holding your heart

And by the time the sun goes down

You won't know who you are

She likes to do it in the dark

She likes to do it in the dark, oh Whenever the darkness comes, she'll have you right where she wants

Ooh ooh

Just when you think it's all over

It's where it all starts

It sounds like an angel is calling my name

It might be the devil, but they all sound the same

And all her moves won't let you get away

She's gonna make your mind come with you to stay If everything you see is what you're believing

Then she'll be holding your heart

And by the time the sun goes down

You won't know who you are

She likes to do it in the dark

She likes to do it in the dark, oh She likes to do it in the dark

Oh oh, oh oh

Ooh ooh ooh If everything you see is what you're believing

Then she'll be holding your heart

And by the time the sun goes down

You won't know who you are

She is gonna make you think you were leading

But she had you from the start

And by the time the sun goes down

You won't know who you are

She likes to do it in the dark

She likes to do it in the dark

She likes to do it in the dark, oh Oh

She likes to do it in the dark
