A Way Out

Nonpoint

I can't control myself
You deserve to feel the way I do
(found a way, found a way)
What if you were called a freak
Until you were 22
(found a way, found a way)
What would it do to you?
Oh, what would it do to you?With every door inside you locked
And all the windows boarded up
There's always a way out
So I had to make you stop
Live my life and shut you up
There's always a way outDid I make this clear to you
You deserve to fight the way I've had toWhat if they took your pride, respect, your life, your blood, your sweat, your tears,
Your lies, your fears, your wife, your kids, your mind, you did!With every door inside you locked
And all the windows boarded up
There's always a way out
So I had to make you stop
Live my life and shut you up
There's always a way outI found a way outWith every door inside you locked
And all the windows boarded up
There's always a way out
So I had to make you stop
Live my life and shut you up
There's always a way outWith every window and every door
My hands and knees on the floor
With every door and every lock
And every window boarded up
Just shuts you up, shuts you up
Just shuts you up
