

# Like I Never Broke Her Heart

**Randy Owen**

Look at her with you  
Her eyes are shining, she looks brand new  
Last time I saw her she was falling apart  
She was crying at the fleetwood fair  
Now she's laughing and tossing her hair

'Cause she loves you like I never broke her heart  
Like I never said goodbye, never made her cry  
Never told a lie, crossed the line or pushed too hard  
I never slammed the door or made her walk the floor  
I wonder where I went when I went too far

She loves you like I never broke her heart  
At the time I didn't know just what I had till she let go of me  
And fell right into your arms so I'll turn away if she looks at me

I've done enough, she's finally free  
Yes, she loves you like I never broke her heart  
Like I never said goodbye, never made her cry

Never told a lie, crossed the line or pushed too hard  
I never slammed the door or made her walk the floor  
I wonder where I went when I went too far

She loves you like I never broke her heart  
I've never seen her look better than she looks tonight  
I don't know what you do but you're doing something right  
Like I never said goodbye, never made her cry  
Never told a lie, crossed the line or pushed too hard  
I never slammed the door or made her walk the floor

I wonder where I went when I went too far  
She loves you like I never broke her heart  
Saw her somewhere the other day  
But she just smiled and looked away  
Like I never broke her heart
