Collapse

Vancouver Sleep Clinic

I'd sunk in oceans blue
Now they're all frozen over
I should have took your hand
We should have crossed the borderBecause never again
Means none of this at all
Forever pretend
In our shelters we don't fallFalling short again
I'm falling short again
The ranges set so high
And I could never climb
FallingIt's so cold, I've come out
Where's the all I have to show
The knowledge that I've never known
The garden that I failed to growCause when the wreck is through and it's all consumed
Maybe then baby, you'll tell me that we didn't cling to enough
That we couldn't outlast the roughFalling short again
I'm falling short again
The ranges set so high
And I could never climb
FallingOn my own
I've been outgrownWe've been outgrown
