

# The Kiss

Tristan Prettyman

Well I can  
See you on the horizon like a  
Storm that's soon to be and is it  
So bad to be in love with a memory  
Of you, smiling back at me  
And it was subtle but it was, yeah it was subtle  
But it was sexy And I suppose I could tell you how I feel  
But even I don't know if it's really real  
And baby baby one day I will show you so you can see  
Oh well, the secret's behind the mystery  
But see baby its like this...I think I kinda just want your kiss  
Just for the thrill and just maybe to miss  
You won't when you're going, just so I know  
That It can and it does get better than this,  
'cause you know love is just a hit and miss  
well you're wrong and you jump and you sink and  
It happens more than you'd think...And I suppose I could tell you how I feel  
But see I'd rather play it cool and keep it real  
And maybe I could show you just so you could see ...  
the secret behind the mystery...And it's, its just one of those days  
when you'd wish it rain already  
and the sky's no ordinary shade of gray But you make it ok...Oh maybe you should know that I do have a crush  
on you  
'cause i see your trap and I fell right through  
with me its always something new To see..And I suppose I could tell you how I feel  
But that moment was magic, it was so surreal  
oh well i swear one day i will let you know  
that i do, oh i do love you so...
