

# Long Haired Lady

## Quicksilver Messenger Service

I find my mind falling like rainbows  
Casting sweet shadows over the long [time moon glow?]  
Unicorns prancing in my mind, [aligned?]  
Sweet lady dancing here and I keep the time

I love you

My long-haired lady Following gardens down to some soft stream

Falling down rivers, swirling on by downstream

Sweet honey dripping in the afternoon

High, lonely, flying, cries the sad, silver loon

I love you

My long-haired lady

Do you believe love at first sight lasts forever?

And can you know I loved you for life, in this hour?

And sometimes it gets a little shaky, huh

That's when you got to carry on; it'll be all right

It will be all right

My long-haired lady Fairy moon maiden, won't you come by me

I have been waiting by the long, dark, cold sea

My ship is laden with sweet gifts for thee

My lovely lady, won't you dance by me

I love you

My long-haired lady

Do you believe love at first sight lasts forever?

And can you know I loved you for life, in this hour?

And sometimes it gets a little crazy, huh

That's when you got to hang on to me; it'll be all right

It will be all right

It'll be all right

My long-haired lady
