Summerland

Amberlife

Let's just drive your car, we could drive all day
Let's just get the hell away from here
For I am sick again, just plain sick to death
Of the sound of my own voiceWe could leave behind another wasted year
Get some cheap red wine and just go flying
We could do the things, all the things you wanted to
No one cares about us anyway
We could do the things, all the things you wanted to
No one cares about us anywayI think I lost my smile, I think you lost yours too
We have lost the power to make each other laugh
Let's just leave this place and go to Summerland
Just a name on the map sounds like Heaven to meWe could find a town, be just how we want to be
No one here really cares about us anyway
We could find a place make it what we want it to be
No one really gives a fuck about us anywayWe could live, live just like we want to live
No one here really cares about us anyway
We could be everything we want to be
We could get lost in the fall, glimmer sparkle and fadeThe sparkle and fade
Fall glimmer sparkle and fade
Fall glimmer sparkle and fade
Fall glimmer sparkle and fadeForget about our jobs at the record store
Forget about all the losers that we know
Forget about all the memories that keep you down
Forget about them, we could lose them in the sparkle and fadeFade
Fade
FadeWe could leave them behind in the sparkle and fade
Yeah sparkle and fade
Fall glimmer sparkle and fade
Fall glimmer sparkle and fade
Fall glimmer sparkle and fade
