

# Getting Hot

## Gwen Guthrie

(Jackie Fox/Lita Ford)

With every beat of my heart its getting dark

    There's something in the air

The doors aren't locked, you know it's not

    But I just know you're somewhere

Hands on the table, are they empty got a fable

    Is it true?

Say he's coming no one said a word

    They've gotten through

    Its such a crush, its getting hot

Temperature's rising it's getting hot

    Shot a single word for telling true

    I can hear him pant

I wanna leave but I just can't breathe free

    If they begin their chant

    Its such a crush, its getting hot

Temperature's rising it's getting hot

Church is breaking my body's shaking

    I just can't tell

He's coming back my head is black

    He must be under a spell

    Its such a crush, its getting hot

Temperature's rising it's getting hot
