Between Breaths (An XX Perspective)

Blaqk Audio

Do you remember the first time?
Time stopped then sped so fast
In just three minutes you were mine
Don't think that it was the lastYou knew I knew the ways
That I could make you say
Please, please please don't take itTake it, take it, take it easy on me, just make it
Make it, make it, make it harder to breathe
So I'll climb on top and I'll never stop
Till I make you forget who you are and just feelDo you remember your last look?
Well, you were smiling and drowning and
I knew exactly what it took
To make you beg and prayPlease, please, please don't take itTake it, take it, take it easy on me, just make it
Make it, make it, make it harder to breathe
So I'll climb on top and I'll never stop
Till I make you forget who you areSo I'll climb on top and I'll never stop
Till I make you forget who you areAnd just feel and play with me
And just steal away with me
So just feel and play with meTake it, take it, take it easy on me, just make it
Make it, make it, make it harder to breathe
So I'll climb on top and I'll never stop
Till I make you forget who you areSo I'll climb on top and I'll never stop
Till I make you forget who you are
So I'll climb on top and I'll never stop
Forget who you are
