Wanted Man (Live From the Woods)

NEEDTOBREATHE

Bright lights swing across the road
But no one seems to know
Just where I'll put my feet down next
Brown eyes, come with me tonight
You could be my Bonnie
And I will be your ClydeI know who I am, my dear
I'm a wanted man
The world I see looks good from here
Right from where I stand
Together we could disappear
I'm a wanted man
So come and get meYou know we are so alive
That even if they kill us
We would never die
I know who I am, my dear
I'm a wanted man
The world I see looks good from here
Right from where I stand
Together we could disappear
I'm a wanted man
So come and get meHey, hey, I am on the run
Because of what I've done
My mistakes are stacked a mile high
