

Empty World

Gravity Co.

I was there - feeling fine
When somethin started changing in me
I felt so pure - like the rain
Never mind the preassure on me
And I am pretty sure - as I look at you
You don` t feel it; like me everyday
To see my history - come and follow me
And now you'll see that I` m going this way
And I am pretty sure - as I look at you
You'll keep my secret all along the way
Rising from the empty world that surround us
For when I see you - I believe you
I` ll take some time to show you what I really meant then
For when I see you - I believe you
Take my hand - I` ll take you anywhere you want to go
For when I see you - I believe you
It's time to show me if you really can thrust me
For when I see you - I believe you
I` m standing still - facing you
It`s time to show you how to believe
Thrust in me - that's the way
Our journey's taking palce in our minds
And I am pretty sure - as I look at you
You don` t feel it; like me everyday
To see my history - come and follow me
And now you'll see that I` m going this way
And I am pretty sure - as I look at you
You'll keep my secret all along the way
Rising from the empty world that surround us
For when I see you - I believe you
I` ll take some time to show you what I really meant then
For when I see you - I believe you
Take my hand - I` ll take you anywhere you want to go
For when I see you - I believe you
It's time to show me if you really can thrust me
For when I see you - I believe you
