

In the Blind

Area 11

Hold the line?
Thespianic answers
Abode of time
Annihilates advances
I redesign; I realign
Frozen, as in foetal

Red shift baths
The hours when it's weakest
Space, gap, space
Repeat; release the secrets
I redefine and yet resign
My only hope; to feel

And when I phased out
The "privileged" and the "purpose"
I realized that art
Can never true be separated
From the frames in the veins
Incumbent carcinoma
That should define who I
Will never be, sorry

Cause this is new way
Still spinning cycles in my mind
Spinning cycles in the blind
Trying to catch me out
Cause this is a new way
Still spinning cycles in my mind
So many cycles in the blind
Trying to catch me out
Trying catch me out

Refluxed detest
Integrity I passed on
Take this fuck
Rejected on the last one
Drop the weight, accept my fate
And trigger the explosion

I scar lives
In neurons; ink on ripped skin
Countermand: the paradigm is shifting
Now keep the faith as illusions break
And we'll show you something real

And when I reach out
Into event horizons
Will there be light and sound
Or will it be just me?

Cause this is new way
Still spinning cycles in my mind
Spinning cycles in the blind
Trying to catch me out
Cause this is a new way
Still spinning cycles in my mind
So many cycles in the blind
Trying to catch me out
Trying catch me out

Cause this is new way
Still spinning cycles in my mind
Spinning cycles in the blind
Trying to catch me out
Cause this is a new way
Still spinning cycles in my mind
So many cycles in the blind
Trying to catch me out
Trying catch me out
