

# Fire in the Sky

## The Ready Set

I been soaked down to the bone  
At the lowest I could go  
Last year I lost my sense of self  
Falling apart like someone else  
And she said "Ooo ya can't live that way,  
Can't live that way, yeah I got you,  
Yeah I got you"  
Then my head contacted a concrete floor  
I never know what I'm getting in anymore, anymore  
She is fire in the sky  
Burning from inside  
My supernatural high  
Fire in the sky  
I been dancing in the dark  
But I know where the lights are  
Those electrical eyes  
Are fire in the sky  
When my skin don't fit the same  
And all the love has gone away  
How could she not want someone else?  
How could she not love someone else?  
But she said "Ooo ya can't think that way,  
Can't think that way, yeah I got you,  
Yeah I got you"  
Then my head contacted a concrete floor  
I never know what I'm getting in anymore, anymore  
She is fire in the sky  
Burning from inside  
My supernatural high  
Fire in the sky  
I been dancing in the dark  
But I know where the lights are  
Those electrical eyes  
Are fire in the sky  
And she said "Ooo ya can't live that way, can't live that way  
Ooo ya can't live that way, can't live that way  
Ooo ya can't live that way, can't live that way  
Yeah I got you  
Yeah I got you"

Fire in the sky  
Burning from inside  
My supernatural high  
She's fire in the sky  
She is fire in the sky  
Burning from inside  
My supernatural high  
Fire in the sky  
I been dancing in the dark  
But I know where the lights are  
Those electrical eyes  
Are fire in the sky  
And she said "Ooo ya can't live that way, can't live that way  
Ooo ya can't live that way, can't live that way  
Ooo ya can't live that way, can't live that way  
Yeah I got you  
Yeah I got you"
