## Weed Out The Weak

## **Hypocrisy**

The cryogenic holocaust
Slows the disease
Give us all a taste of your miracle
We're thirsty for your medicineThe hate burns in our eyes
It's kill or be killed

It's in the nature of the human races' weak mind To be exterminated by ourselvesJust stab their hearts for nothing

Your greedy soul screams in envy

Kill them all, release the anger

Weed out the weak, you don't need themWeed out the weakExterminate the riff raff

No one will miss you anyway

Clean up the world with an iron fist

Start the harvest of the deadThere's no room for the weakened mind

There's no room for you

There's a new religion coming around the bend And it's called fuck youJust stab their hearts for nothing

Your greedy soul screams in envy

Kill them all, release the anger

Weed out the weak, you don't need themWeed out the weak, stab them all

Weed out the weakJust stab their hearts for nothing

Your greedy soul screams in envy

Kill them all, release the anger

Weed out the weak, you don't need themJust stab their hearts for nothing

Your greedy soul screams in envy

Kill them all, release the anger

Weed out the weak, you don't need themWeed out the weak
