

# Let It Be Known

Thea Gilmore

Let it be known I asked some questions  
Let it be known I read the rules  
Let it be known I took suggestions  
From philosophers and fools

Let it be known I reeked some havoc  
Let it be known I threw some darts  
Let it be known I had the good life  
Seen constellations in your eyes

There's a day that's coming  
Where they'll pull the blinds  
'cause the seasons gunning for me darlin'  
It just comes down to time

Let it be known that you are home

Let it be known I felt disgraceful  
Let it be known I felt divine  
Let it be known that I was faithful  
to love, to music, and to wine

Let it be known I had religion  
though it was more a contact sport  
I held the people I was given  
Prayed to the lessons that they taught

There's a day that's comin'  
Where they'll pull the blinds  
'cause the season's gunning for me darlin'  
It just comes down to time

Let it be known that you are home

Let it be known I had some answers  
Let it be known I let them fly  
Between the waters and the dancer  
I tripped the canyons of the sky

Let it be known that I am grateful

and it be hoped I leave no trace  
save for hollow and metal  
and the echo in your face

---
