

# Into the Arena

## Masterplan

No one knows the way  
It's all a secret  
Hunt for knowledge  
On your journey home  
Gotta fight for freedom, independent power  
Living for now, trying somehow  
Praying for the dayShe's a blazer  
I'm a soul chaser  
We'll keep on searching for more  
Cruising this firestom  
Burn till it's over  
Leading our ship to the coreGo, aim for the centre, explode  
Till you fall out of timeNothing's new, we wonder about our fathers  
Try to learn from what they made of life  
Like a gladiator, you're a broken hero  
Building your shield for the battlefield  
There's no easy wayCruising this firestorm  
Burn till it's over  
Leading our ship to the coreShe's a blazer  
I'm a soul chaser  
We'll keep on searching for more  
Cruising this firestorm... burning  
Leading our ship to the core... yeah
