

You Be My Baby

Ray Charles

You be my baby
Don't give me no maybe
I never, never make you cry
You be my honey
Give you all my money
I will till the day I die Because I never, never, never felt such a thrill
And I never, never, never felt this way upto
Woah, kiss me, kiss me, kiss me, can I get my bill? You've set my world
Come closer, girl
You be my lover
There's no one above ya I want everyone to know
You look so tasty
Like quick cream pastry
Never, never let you go Because I always, always, always want you by my side
Always, always, always to keep you satisfied
You know, wanna, wanna, wanna make you be my bride
Once you name the date, marry right away You know you please me
Don't ever leave me
I always want you near
You know I need ya
Come, let me lead ya
And make all your troubles disappear Because I love you, love you, love you everyday
Pet you, pet you, pet you in my own way
You won't ever, ever, ever need to go astray
You understand, am I your man? Yeah baby, you know it's alright
Come on, baby, and love me tonight
Woah baby, I wanna talk to you
I need you, baby, to see me through
