Achilles Heel

Plan Three

Wheels spin, faster
Servant, master
Naked in your, eyesYou reach out defenseless
My strongest weakness
Blindsided by your smile
My only vice
Thought i'd turn my tideBut no matter how I try
In a flash you got me open wide
I don't know what is fiction, what is real
If I just could flip a switch, and not feel
You're my achilles heelYou blow hot and cold
So much untold
You're a blessing and a, curseNow I walk my own way
Thought I could never let
Thought I could just play
I'm losing this war of, nervesThere's no lesson learned'Cause no matter how I try
In a flash you got me open wide
I don't know what is fiction, what is real
If I just could flip a switch, and not feel
You're my achilles heelThere's no lesson learned'Cause no matter how I try
In a flash you got me open wide
I don't know what is fiction, what is real
If I just could flip a switch, and not feel
You're my achilles heel
