

# Achilles Heel

## Plan Three

Wheels spin, faster  
Servant, master  
Naked in your, eyes You reach out defenseless  
My strongest weakness  
Blindsided by your smile  
My only vice  
Thought i'd turn my tide But no matter how I try  
In a flash you got me open wide  
I don't know what is fiction, what is real  
If I just could flip a switch, and not feel  
You're my achilles heel You blow hot and cold  
So much untold  
You're a blessing and a, curse Now I walk my own way  
Thought I could never let  
Thought I could just play  
I'm losing this war of, nerves There's no lesson learned 'Cause no matter how I try  
In a flash you got me open wide  
I don't know what is fiction, what is real  
If I just could flip a switch, and not feel  
You're my achilles heel There's no lesson learned 'Cause no matter how I try  
In a flash you got me open wide  
I don't know what is fiction, what is real  
If I just could flip a switch, and not feel  
You're my achilles heel
