

# Sanctify

## Calla

I have it planned in my mind  
Im comin' at you from behind  
When your guard is down  
When you least expect itIm gonna find out a way  
For me to wallow in your ways  
And idolize from the insideI'll learn to deal with your kind  
Manipulate the divine  
And sanctify  
Have patienceYoull never know I was there  
Im gonna catch you unaware  
I sympathize  
Cut you down to sizeMerciful cold, cold hands  
I feel for you  
Simply because youre mine  
I need you, I beg you, forgive youAll for you, by default  
For you, all this  
Its all, all for you  
My fall for you
