

# Travis Perkins

## Biffy Clyro

What you wanted I can't give you, what you said was true now my old friend  
You can have it but I wanted everything I can't remember now, it was September, now, I can't remember, now  
Travis Perkins, I can't remember my head float away...  
Cause I love you and I needed you to stay I can't remember now, I can't remember now, Travis Perkins now  
Trust me once I think I needed everything to be that way  
But I miss you all the same  
And I can remember my head blown away  
Cause I love you and I needed you to stay
