

Halloween All Year

The Orwells

You're young,
They don't listen, but I believe
Get a knife from the kitchen and follow me
Is it fake? Is it real?
But, I can't see.
Take a drink from the vial, and lie with me. I believe
They're looking for me There's a body on the ceiling looking for me
Get a knife from the kitchen and follow me
But, I can't see
But, I can't see
Follow me
Now You're young,
They don't listen, but I believe
Get a knife from the kitchen and lie with me
Lie with me
But, I can't see
Is it fake? Is it real?
But, I can't see
I believe
