

Want You Back

[Mandy Moore](#)

Last night, I saw you the first time since we broke up
I tell you baby it all came back to me
When I looked into your eyes there was something more
That I never really noticed before, could it be? That's no long, and I was so wrong
When I realized and turned around that you and I If I say I want you back
Would you turn around and say you want me too
'Cause I say I want you back
This time I really mean it It hurts so much, I want to tell you I changed for you
But I don't know what to say or do
We grew apart but I still want you in my heart
I believe it's time to make a new start, could it be? That's no long, and I was so wrong
When I realized and turned around and you were gone If I say I want you back
Would you turn around and say you want me too
'Cause I say I want you back
This time I really mean it It's a thing, I want you, I want you back
Will you turn around and walk away
From me, it's a shame
I want you back with me, believe If I say I want you back
Would you turn around and say you want me too
'Cause I say I want you back
This time I really mean it And if I say I want you back
(I want you back)
And if you say you want me too
(Do you really want me too?) And if I say I want you back
(I want you back)
And if you say you want me too
(Do you want me too?) And if I say I want you back
(Want you back)
And if you say you want me too
(I need you by my side) And if I say I want you back
(I want you back)
And if you say you want me too
(Do you want me too?) And if I say I want you back
(Baby, I want you baby)
And if you say you want me too
(I want you too, I want you baby, do you want me too?)
