

Right and Exact

Dilated Peoples

I push my levels to zero with distortin'
Boost two compression enhancers the message I'm recordin'
Live from California, warnin' night to mornin'
The illest squad this side of earth is now formin' itself into a whirlwind, spin pattern the outcome
Be tragic, tell me what you want I still doubt them
I hit up the beat unique
For seven-eighths I levitate, hit save not delete You could get in the game, but who's ahead in the race?
To a dust storm, when it clears there's no trace
Of where I was, was not or how I got there
The image you recall so clear has disappeared
Yeah, since most kids are spoiled these days, we let 'em have it Yo, yo, I make moves and get my passport
decorated
I keep my business and my personal separated
From Cali to Philly to the Circus of Picadilly
This verse is sound killin' rehearsed, do your research Walk 'til my feet hurt, smoke 'til the weed hurt
Challenge this, you know the alchemist make the beat work
Send a hot flash of fever through your speaker
Then after the heat bring chills like deep freezers Live or TV, whether tape or CD
Twelve inch, liquid audio or MP3
Fuck the format, they askin', where the platform at?
Late summer, early fall, yo babs, where the storm at? It's right here
Since most kids are spoiled these days, we let 'em have it
I let 'em have it, how they want it?
Since most kids are spoiled these days, we let 'em have it Right, right and exact, and here it is
My life is balance on opposites
Rakaa lit the fuse and now apocalypse about to hit crews
(Watch out)
I'm weatherman, DP's with the remedy
Type to know your rhythm, can't hum the melody I'm telepathic, vocals kill in action
To particle pieces broken glass tactics
(Presentin')
High-hat, fat snares, light your flares
Intros and ill flows come equipped and prepared Aiyyo, Rakaa bring the ruckus like Rawkus
Rock Steady floor rockers and all hardcore poppers and lockers
You're not a speed bump so for sure you're not an obstacle
Name is Iri-style, Tri-clops
(Triple optical) War will be a heavy cost to you, let me caution you
I take it international when everything is optional
My advice is duck Dilated if it's possible

I know cats in jail, hip hop and in hospitals
