

# Ignore the Machine

## Alien Sex Fiend

Sun arise come every morning  
Sun arise come every morning  
Bringing back the warmth to the ground!  
I live in Siberia, Through no fault of my own.  
We're a blank generation,  
In the danger zone  
Paracidal slumbers from 7 to 23...  
Only the blind follow me. Abyssinia in the morning,  
Breakfast in Berlin.  
Oh!  
You leave me dying... 'Cause everybody wants what everybody's got  
And everybody's got what everybody wants  
Soldier lies bleeding where a church once stood  
Ignore the machine  
Ignore the machine. Couldn't get to sleep this morning  
I watched the sky  
I couldn't see  
There weren't no warning  
I watched you burn last night. 'Cause everybody's got what everybody wants  
Everybody wants what everybody's got  
Soldier lies bleeding where a church once stood  
Ignore the machine  
Ignore. Everybody wants what everybody's got  
And everybody's got what everybody needs  
Soldier lies bleeding  
Oh you leave me dying. Everybody's got what everybody wants  
Everybody wants what everybody's got  
Everybody wants what everybody's got  
And everybody needs.
